Acceletronics

Reliable Service is Essential

A failure of your linear accelerator means that patients miss vital treatments. Your facility loses critical revenues. And schedules get thrown into chaos. That's why you need a service company that is up to speed on the latest technologies and 100% committed to keeping your systems up and running, 365 days a year. That company is Acceletronics, the nation's oldest and one of the largest companies dedicated to Oncology, Radiotherapy and Imaging equipment service and sales.

The Choice of Leaders

Established in 1981, Acceletronics is the company that many of the nation's most respected healthcare facilities count on to keep their systems running at peak efficiency. We maintain a rigorous in-house training program so that we keep pace with new technological advances. Our dedicated nationwide team of customer service and support professionals provide a level and depth of service that goes above and beyond industry standards for response, qual-

ity and expertise. We provide this superior service at a very competitive cost.

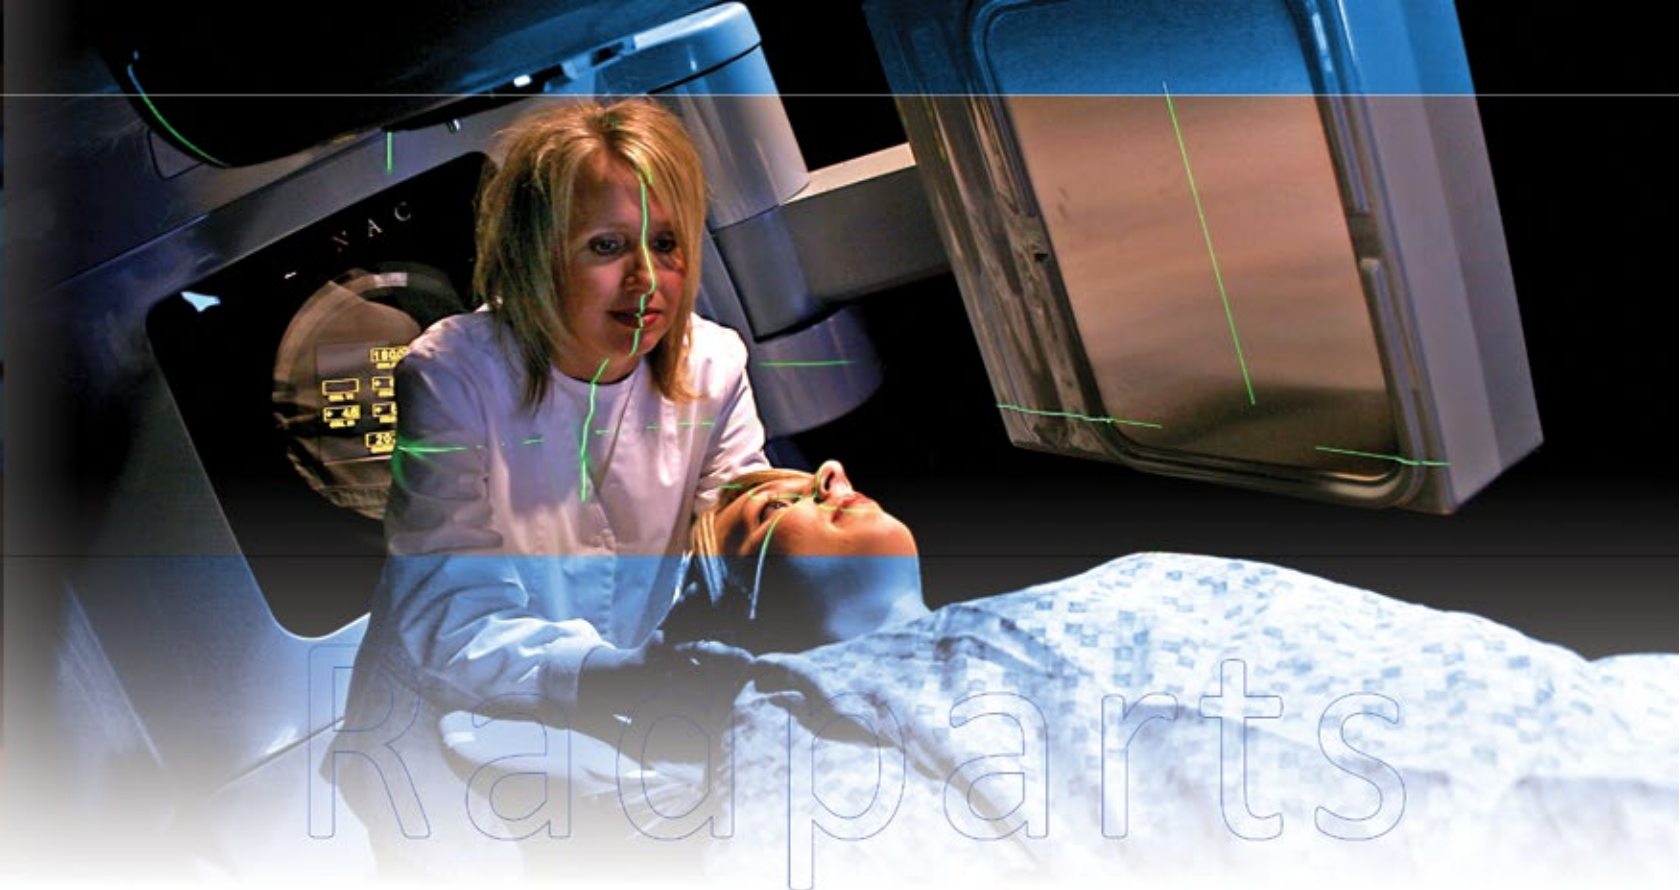

Your source for service, parts & systems.

We're successful helping our clients beat the high cost of new equipment by offering top quality refurbished IMRT and IGRT equipped Linear Accelerators, CT Scanners, MRI Scanners, Conventional Simulators, Orthovoltage, Ultrasound, treatment planning, and many treatment aids and accessories — all financed to meet our client's needs, installed to original factory specifications and backed by our guarantee of satisfaction.

“ Tacoma/Valley Radiation Oncology Centers have been very pleased with Acceletronics service for our radiation therapy equipment, as well as their ability to obtain parts at a reasonable cost. We would highly recommend them to any radiation therapy department or group. ”

Randy D. Sorum, MD

Linac and Medical Imaging parts

Radparts specializes in linear accelerator and medical imaging parts with one of the largest independent inventories of spare parts for linear accelerators in the world. Radparts provides depot level repair, upgrades and system refurbishment. Both Acceletronics & Radparts are registered to ISO9001:2008 quality system standards and together, provide a one stop, high quality, lower cost solution for your oncology department.

“Finley Hospital has been associated with Acceletronics for 18 years. Over the years, as you can imagine, we have faced every imaginable problem that can occur on our linear accelerators. Acceletronics has been able to fix every problem we have had in a timely manner. They take great pride in their work and we are very pleased with the service they provide.”

Michel J. Kelly, Director of Oncology

*"We at Battle Creek Health System have utilized
Acceletronics as our service engineers for over 15 years.
We have found that in our experience with Acceletronics that the
quality of service as well as their timeliness is unmatched."*

Robert Sieffert, MS, Medical Physicist
